# IFS GROWTH NEW ZEALAND'S BEST LITTLE FORESTRY COMPANY.

In so many ways our company is like the forest we grow rooted to our past, growing in the present, sustaining our future. 100% New Zealand owned; uniquely Kiwi.

Our values and way of doing business has been shaped from a succession of hardworking pioneers. Values which underpin our relationships, our environmental stewardship, and actions which shaped our land and its people.

IFS Growth; grown from family, partnering with like-minded people, challenging the norm and “getting it done”.

Openness, trust and courage underpin our actions. Growing our partners and people with an innovative can-do attitude comes naturally to us: it is who we are.

Our confidence in the future stems from knowing who we are, where we come from and the values which hold us together. In a world of change our focus is to build a sustainable future in our uniquely Kiwi way.

Our families, our partners our futures are our story  
Join us on our journey to grow generational living  
breathing investments.
