

Supporting local helicopter foundations

We are proud to have sponsored LifeLight for the three years running, and have recently acquired sponsorship donation toward our regional helicopter rescue groups and are proud to be supporting TECT Rescue Helicopter through Philips search and rescue Trust and Nelson Marlborough Rescue Helicopter Trust. We know only too well the need for these services and feel grateful we can give a little back to these foundations. This year, IFS Growth's support for these heli rescue groups Tauranga and Coastal Bay of Plenty and the Nelson Marlborough communities, will help ensure the Rescue Helicopters are available this summer and throughout 2021, to help you and your families stay safe and sound.
